- Continued vaccinations to ensure protection against relevant diseases.

## School Enrollment

HEALTH CHECK

650,000 VND/Check-up

\*Please bring school's health check-up form

School Enrollment Health Check serves as a vital step in the well-being of students in their educational journey. The examination aims to assess students' overall health status and ensuring they are prepared for the academic year ahead. Through this initiative, schools prioritize the holistic development and safety of the student body, fostering an environment conducive to learning and growth.

#### REGISTRATION

Book your appointment.

#### PREPARATION

Please bring your child's required documents: identification, school application form, vaccination record, and prescription eyeglasses or contact lenses if needed.

#### DOCTOR CONSULTATION

The doctor will conduct your child's health check according to school requirements. Food and drink are allowed before the appointment. Urine and blood samples may be needed for school applications.

#### RESULT

Report will be ready in 3 working days.

## Health Talks & First Aid Training Workshops

COMPLIMENTARY

Join us as we embark on a journey to prioritize health and safety within our school communities. Our Educational Health Talks and First Aid Workshops are designed to equip students, educators, and parents with essential knowledge and skills to promote well-being and respond effectively to emergencies. Through engaging discussions and hands-on training, we aim to foster a culture of health-consciousness and preparedness within our school environments.

## Flu Vaccinations & Advice

430,000 VND/shot

\*Applicable for self-pay only

As flu season typically circulates year round and infections often increase between October and December, prioritizing flu vaccinations is essential for families. By getting vaccinated, families can protect themselves and their children from flu infections and associated health risks, ensuring peace of mind and contributing to community health by curbing the spread of the virus. Preventing flu infections helps minimize school and work absenteeism, sustain productivity, and maintain uninterrupted daily routines throughout the flu season.
